

Gender Pay Gap Report

Eurofins Food Testing UK Limited is required by law to publish an annual gender pay gap report. The gender pay gap is defined as the differences in the average earnings of men and women over a standard period of time, regardless of their role seniority.

We are very pleased to confirm that steps taken over the last 24 months continue to positively impact on our position, in particular through actions taken with our supervisory structure and management team where we have placed greater emphasis on consistent pay and benefit bandings.

A positive pay gap indicates that men are paid more; a negative pay gap indicates that women are paid more.

The overall gender pay gap is defined as the difference between the median (actual midpoint) or mean (average) basic annual earnings of men and women expressed as a percentage of the median or mean basic annual earnings of men.

This is the Eurofins Food Testing UK Limited report for the snapshot date of 5 April 2018

- The mean gender pay gap for Eurofins Food Testing UK Limited is 6.86%
- The median gender pay gap for Eurofins Food Testing UK Limited is 1.14%
- The mean gender bonus gap for Eurofins Food Testing UK Limited is -29.85%
- The median gender bonus gap Eurofins Food Testing UK Limited is 66.83%
- The proportion of male employees in Eurofins Food Testing UK Limited receiving a bonus is 5.1% and the proportion of female employees receiving a bonus is 4.3%.
